Crafted for  
connection.

# Introducing Slab

With strong lines and contrasting materials the Slab collection is a show stopping design, created to accentuate the beauty of solid timber and locally quarried Bluestone.

Lending itself to larger formats, the Slab range is ideal as a communal dining feature in cafes, restaurants or office cafeterias or as a collaborative leaner for stand-up meetings. Designed and manufactured in New Zealand, the Slab range is available with tables, bar leaners, bench seats and outdoor options.

Making  
every moment  
an unforgettable  
experience.

Finishing

The Slab Indoor range is made from solid American ash and available in a choice of 24 timber stain colours.

Tables + Leaners

Slab offers table height at 750mm or leaner height at 1050mm. Available in a variety of sizes, ensuring it can adapt seamlessly to different spaces and requirements.

Sapele

The Slab Outdoor range is made from Sapele which is a robust West African hardwood timber. Sapele is finished with an ‘Oiled’ finish as standard, or you can request our ‘Dark Oiled’ finish.

Bench Seats

Bench seats are designed to complement tables of all sizes, available in a range of lengths to ensure a perfect fit for any seating arrangement.

Bluestone Feet

The Slab Collection features a unique solid stone foot made from Bluestone, quarried and machined locally by Timaru Bluestone.
